 iBIBLE Chapter 1: Creation [RevelationMedia] (10:31)

Notice:

- Genesis is a ***simplified story***, without many details.
- **It is not written to be a science textbook.**
- Simple language is used, similar to a father talking to a child about his birth.
- **It is written in patterns and repeating phrases like Hebrew poetry.**
- Yet, the Bible is perfectly accurate in its simplicity.

God’s revelation to all people, in all times, all places!
