

Lesson #10: ANIMALS SHOW DESIGN... NOT EVOLUTION

1.) GOD DESIGNS CREATURES WITH EVERYTHING THEY NEED.

But if Evolution is true - everything that is needed had to “evolve” at the same time... purely by *ACCIDENT*.

**WHICH IS MORE REASONABLE TO BELIEVE...
ACCIDENT OR DESIGN?**

Example: **Woodpecker's tongue**

Video:

Wonders of Creation: Bombardier Beetle by World Video Bible School (4:28)

2.) EVOLUTION (ACCIDENTS OF NATURE) CAN'T SUPPLY ALL PARTS AT THE SAME TIME.

Demo: Mousetrap needs all parts to work.

The Complexity of Life with Michael Behe, Ep. 2

“IRREDUCIBLE COMPLEXITY” is the concept that a complex system needs all essential parts to work. If it is reduced to only some of the parts that are needed – it can't work. The same is true for living creatures – all essential parts must be there at the same time. If not... Nature cannot “select” it to survive.
